Professional Summary

Final-year Computer Science Engineering student and MERN Stack Developer with hands-on experience building scalable web applications, secure authentication systems, and API-driven platforms. Skilled in React.js, Node.js, Express.js, MongoDB, and modern frontend development. Strong understanding of full-stack architecture, REST APIs, database design, and deployment workflows.

Technical Skills

Languages: JavaScript, Java

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB

Tools: Git, GitHub, Postman, MongoDB Atlas, Claude ai, Cursor, Antigravity

Work Experience

Kiaan Technologies, Indore

Dec 2025 – Jan 2026

MERN Stack Developer Intern

- Developed responsive and dynamic web applications using React.js, Node.js, Express.js, and MongoDB.
- Built reusable frontend components and integrated REST APIs for seamless client-server communication.
- Worked on authentication systems using JWT and implemented protected routes and role-based access control.
- Optimized UI responsiveness and improved application performance across desktop and mobile devices.
- Collaborated with the development team using Git and GitHub for version control and project management.

Projects

Prep AI – AI-Based Interview Evaluation Platform

React.js, Node.js, LLM APIs

- Built an AI-powered interview preparation platform with quizzes, analytics, and interview simulations.
- Integrated AI-based voice and text interview assistant with scoring and feedback logic.
- Developed performance tracking modules for monitoring weak topics and improvement areas.

EmailGuard – Email Breach & Security Intelligence Platform

MERN Stack, JWT, HIBP API

- Built a security-focused platform to detect compromised emails using breach intelligence APIs.
- Implemented secure authentication, access control, and login activity tracking.
- Designed backend validation and audit-friendly data handling for improved reliability.

Campus Find – Lost & Found Management System

React.js, Node.js, MongoDB

- Developed a centralized platform to manage lost-and-found cases through structured workflows.
- Built secure APIs for reporting, updating, and resolving item cases.
- Designed MongoDB schemas for users, items, and case lifecycle tracking.

Education

Medi-Caps University, Indore

2022 – 2026

Bachelor of Technology in Computer Science Engineering

MPBSE Board

2022

Higher Secondary (12th)

CBSE Board

2020

Secondary (10th)
